SITOP SEL1400/4X2-10A

EcoTech

SITOP SEL1400 10 A selectivity module 4-channel with limiting characteristic input: 24 V DC/40 A output: 24 V DC/4x 10 A threshold adjustable 2-10 A with monitoring interface

type of the power supply network	Controlled DC voltage	
supply voltage at DC rated value	24 V	
input voltage at DC	20.4 30 V	
overvoltage overload capability	35 V	
input current at rated input voltage 24 V rated value	40 A	
utput		
voltage curve at output	controlled DC voltage	
formula for output voltage	Vin - approx. 0.2 V	
relative overall tolerance of the voltage note	In accordance with the supplying input voltage	
number of outputs	4	
output current up to 60 °C per output rated value	10 A; +60 +70 °C: Derating 2%/K	
adjustable current response value current of the current- dependent overload release	2 10 A	
type of response value setting	via potentiometer	
response delay maximum	5 s	
product feature parallel switching of outputs	Yes	
type of outputs connection	Connection of all outputs after ramp-up of the supply voltage > 20 V; delay tir of 25 ms, 200 ms, 500 ms or "load-optimized" can be set via DIP switch for sequential connection	
fficiency		
efficiency in percent	98 %	
power loss [W] at rated output voltage for rated value of the output current typical	10 W	
witch-off characteristic		
switching characteristic		
 of the excess current 	lout = 1.01.5 x set value, switch-off after approx. 5 s	
 of the current limitation 	lout = 1.5 x set value, switch-off after typ. 100 ms	
 of the immediate switch-off 	lout > set value and Vin < 20 V, switch-off after approx. 0.5 ms	
design of the reset device/resetting mechanism	via sensor per output	
remote reset function	Non-electrically isolated 24 V input (signal level "high" at > 15 V)	
rotection and monitoring		
fuse protection type at input	15 A per output (not accessible)	
display version for normal operation	Three-color LED per output: green LED for "Output switched through"; yellow LED for "Output switched off manually"; red LED for "Output switched off due tovercurrent"	
design of the switching contact for signaling function	Floating common signal contact or status signal output (pulse/pause signal that can be evaluated via SIMATIC function block)	

galvanic isolation between input and output at switch-off	No		
standard for safety	according to EN 62368-1		
operating resource protection class	Class III		
protection class IP	IP20		
standard			
• for emitted interference	EN 61000-6-3		
• for interference immunity	EN 61000-6-2		
standards, specifications, approvals			
certificate of suitability			
CE marking	Yes		
• UL approval	Yes; UL-Recognized (UL 2367) File E328600; cULus-Listed (UL 508, CSA C22.2 No. 107.1) File E197259		
 CSA approval 	Yes; CSA C22.2 60950-1		
EAC approval	Yes		
type of certification			
CB-certificate	Yes		
standards, specifications, approvals hazardous environment	ts		
certificate of suitability			
• IECEx	No		
• ATEX	No		
standards, specifications, approvals marine classification			
shipbuilding approval	No		
standards, specifications, approvals Environmental Product			
Environmental Product Declaration	Yes		
	Tes		
global warming potential [CO2 eq]	5051		
• total	565 kg		
during manufacturing	32.5 kg		
during operation	532 kg		
after end of life	0.52 kg		
Siemens Eco Profile (SEP)	Siemens EcoTech

security information

security information

Siemens provides products and solutions with industrial cybersecurity functions that support the secure operation of plants, systems, machines and networks. In order to protect plants, systems, machines and networks against cyber threats, it is necessary to implement – and continuously maintain – a holistic, state-of-the-art industrial cybersecurity concept. Siemens' products and solutions constitute one element of such a concept. Customers are responsible for preventing unauthorized access to their plants, systems, machines and networks. Such systems, machines and components should only be connected to an enterprise network or the internet if and to the extent such a connection is necessary and only when appropriate security measures (e.g. firewalls and/or network segmentation) are in place. For additional information on industrial cybersecurity measures that may be implemented, please visit www.siemens.com/cybersecurity-industry. Siemens' products and solutions undergo continuous development to make them more secure. Siemens strongly recommends that product updates are applied as soon as they are available and that the latest product versions are used. Use of product versions that are no longer supported, and failure to apply the latest updates may increase customer's exposure to cyber threats. To stay informed about product updates, subscribe to the Siemens Industrial Cybersecurity RSS Feed under https://www.siemens.com/cert. (V4.7)
